Assets

Total Assets through 12/31/2022 are \$332,858,913 which reflects a 13.92% decrease since December 2021. (p. 5)

Charitable Remainder Trusts (CRT) and Charitable Gift Annuities (CGA)

The CRT and CGA funds have been adjusted to reflect the activity and balances per Kaspick & Company and the third-party account balances as of December 31, 2021. (p. 5)

Realized and Unrealized Gains and Losses on Investments

Net year-to-date realized gains were \$471,000 and unrealized losses were \$47,051,188, for a total loss of \$46,580,188. (p. 8)

Operating Fund

Total revenue at year-end was \$168,212 less than the budget, and total expenses were \$380,492 below budget resulting in an actual surplus, before investment returns and other income, of \$233,612 compared to a budgeted surplus of \$21,332. Unrealized losses were \$107,368 on the operating reserve held in the Medium-Term Fund portfolio offset by \$747 in realized gain. Including investment gains/(losses), the year ended with an actual net operating surplus of \$126,647. (p. 9)

Revenue ended the year below budget. The volatility of the market had a significant impact on fund balances which decreased fee revenue in the third and fourth quarters. However, substantial contributions to the operating fund and staff efforts to control costs combined to maintain a positive year-end operating result.

As projected, salaries and benefits ended below budgeted amounts due to intermittent vacancies throughout the year. In September, the health care renewal experienced an increase that was 5% above the expected amount. However, budgeted benefits that were unused by select personnel offset the September increase in health costs and contributed to the overall budget surplus in salaries and benefits.

Overall administrative expenses finished the year below budget primarily due to cost savings on systems maintenance costs resulting from a delay in software conversions pending a holistic view of service and technology needs and decisions on future database systems. Contributing to this was savings on depreciation expense for budgeted purchases that were not made as efficiencies were sought to reduce costs. The 2023 budget includes a database conversion and related software conversions.

In addition, anticipated in-person conferences continued to be held virtually reducing the cost of attendance. Services ended the year higher than budgeted due to contracted accounting services during the Director of Finance recruitment. This cost is offset by the position vacancy savings realized in salaries and benefits.

The 2022 rental agreement for the Salinas property was revised in late 2021. The agreement revised the rent structure to include a utility allocation. As this was completed after the budget process, there is a variance (under) on rent that is partially offset by a variance (over) on utilities as the agreement shifted the expense classification. This variance continued through the end of year but has been corrected in the 2023 budget.

Unexpected increases in printing, postage, and design services resulted in a budget overage for production of the annual report. The printing service was \$10,057 over budget due to paper and supply chain issues contributing to an overall overage of \$19,144. Staff continue to evaluate the production for cost savings in future years. New hires and other staff life events resulted in an overage on staff recognition expense that ran through to year-end. Overall, however, Development, Program & Staff ended the year with a surplus as COVID-19 continued to limit in-person activities.

Note: The Expendable Operating Cash-on-Hand is at 9.5 months, excluding the operating reserve of \$500,000 and the building reserve of \$150,000. (p. 10)

Portfolio Performance

The market value of the Long-Term Fund portfolio at 12/31/2022 was \$260,011,613. The one-year Total Return for the Long-Term Endowment Portfolio was -14.9% compared to the Policy Index of 13.5%. (p. 11-14)

The market value of the Medium-Term Fund portfolio at 12/31/2022 was \$10,338,758. The one-year Total Return for the Medium-Term Endowment Portfolio was -12.9% compared to the Policy Index of -13.0%. (p. 15-17)

The market value of the ESG Fund portfolio at 12/31/2022 was \$9,150,467. The one-year Total Return for the ESG Portfolio was -13.7% compared to the Policy Index of -15.0%. (p. 18-20)

The market value of the DRIM Fund portfolio at 12/31/2022 was \$2,567,027. At 11/30/22, the one-year Total Return for the DRIM Portfolio was -8.9% compared to the Policy Index of -4.8% on a balance of \$2,986,872. Due to the timing of the DRIM reports, there is a one-month lag in the performance reporting. (p. 20-21)
